

This program allows friendly programming that gives people an opportunity to listen to something that will allow them to be or become a better citizen. The values of the songs promote good citizenship, being kind to strangers and family and friends, obeying the law and doing what is right morally. Morals do vary from group to group, but a basic moral system is integral to a society that works. If the FM station is displaced by LPFM and the station is no longer heard, people will have little choice for family friendly listening and inspiration to live a better life. This is in the public interest because of the results of listening to such values builds a better community.
